REAL WOOD REPLICATED IN A REINFORCED PVC COMPOSITE

The Pioneer range is advancing composite aesthetics with high-resolution digital scanning which replicates real timbers for an exceptionally natural look and brings a touch of affordable luxury to your outdoor space. By offering the authentic look of timber through scans rather than felling real trees, Pioneer helps prevent deforestation and the possible extinction of these wood species. A foamed-PVC and glass fiber-reinforced core provides increased strength and span capability and reduces expansion and contraction of the PVC. Its advanced wear layer protects against fading, scratches, and stains while its long-lasting composition resists insects, moisture, and weather-related issues. Enjoy the look of expensive exotic timber in long-lasting and low-maintenance composite.

Pioneer offers a reinforced core and a photorealistic print surface finish with a clear outer wear layer which provides extra protection for the colour and resiliency of the board.

Capping material:

Print surface finish with protective wear layer

Core material:

Foamed-PVC with glass fiber-reinforced core

FSC® certified composite product

TAKE HOME THE BENEFITS

REALISTIC AESTHETIC

Advanced digital scan replication of real wood for an exceptionally natural look

MORE STABLE

Less movement from expansion & contraction

ECO-FRIENDLY

Prevents deforestation by capturing the beauty of real timbers without felling

WEAR LAYER

Wear layer offers protection against stains, scratches and fading

AFFORDABLE LUXURY

Enjoy the look of expensive real woods in long-lasting composite

DECAY RESISTANT

Long-lasting & resists insects, moisture, & weather

LOW-MAINTENANCE

Only basic care required for optimal longevity

REAL WOOD REPLICATED IN A REINFORCED PVC COMPOSITE

GROOVED BOARD

The Pioneer wide single sided grooved board is available in a wider, thinner, and lighter profile design. It is reinforced and offers a flawless, fastener-free final look due to grooves along its edges which are designed for streamlined installation using HULK hidden fastener clips, available as S-Series clips or as Chain collated clips.

Dimensions

145 x 21 mm (5.45 m lengths)

Weight

2.2 kg/m

Recommended Joist spacing

nded 4!

450 mm centre to centre*

*Please refer to the technical documents for more information on spans and loads.

STARTER BOARD

The Pioneer wide single sided starter board is lighter weight and ideal for creating a picture frame effect for decks and for use on stairs edges. It simplifies installation by accommodating grooved boards while offering a solid square outside edge. Install using HULK hidden fastener clips on the grooved edge and HULK colour matching top fixing screws on the square edge.

Dimensions

145 x 21 mm (5.45 m lengths)

Weight

2.6 kg/m

Recommended Joist spacing

COLOUR GUIDE

The Pioneer colour range celebrates the beauty of timber with exceptionally natural looking composite. Pioneer offers state-of-the-art high-resolution digital print technology and scans of real timber to give each board an unrepeated realistic wood grain texture. This technology mirrors the hues and tones of specific timber types.

Pioneer is produced with random colour variations within the product to mimic that of natural timber. So in any colour, you will get a variety of lighter and darker tones just as nature intended. This only adds to the aesthetic appeal of your composite decking.

FASTENED, FOR LIFE.

No Pre-drilling Required

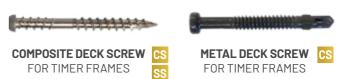

DESIGNED FOR PROFESSIONALS. PERFECT FOR NOVICES.

Eva-Last has developed a range of fasteners that thoroughly complement our composite products to ensure the stability and longevity of your deck. HULK fasteners are specially designed to securely fasten the deck boards to a substructure, but can also be used in other wood or steel fixing applications. The coating employed for our HULK fasteners ensures the fixing system supports your deck through out its lifespan.

HULK FASTENERS						
IMAGE	COLOUR	BITS	MATERIAL	UNITS PER PACK

HULK FASTENERS COLOUR GUIDE

HULK timber and metal frame deck screws are specifically designed for fastening composite decking securely to the deck frame. Countersinking heads are coloured to match your deck to leave a neat surface finish.

Use the table below to help choose the HULK Fasteners screw that best matches your Eva-Last decking or decking of similar color.

COLOUR	PIONEER	APEX PLUS	INFINITY
LIGHT GREY	-	-	Caribbean Coral
DARK GREY	-	Alsakan Driftwood	Cape Town Grey
BEIGE	Natural Blackbutt Blackbutt	Himalayan Cedar	-
TAN BROWN	Spotted Gum	-	-
LIGHT BROWN	-	Hawaiian Walnut	Oasis Palm Spanish Saffron
BROWN	-	-	Tiger Cove

GET THE JOB DONE FASTER.

Chain collated clips save you time and money by streamlining installation with pre-loaded screws that offer cutting-edge performance for the entire lifespan of your deck. Enjoy a simpler installation and a more secure long-term fastener that complements the overall look of your deck.

FEATURES AND BENEFITS

MORE EFFICIENT INSTALLATION

Collated system comes pre-loaded with screws for guicker installation

DURABLE

Stainless steel clip with a protective polymer coating for extended outdoor longevity

INNOVATIVE ENGINEERING

Cost-effective use of materials without affecting grip strength or overall clip performance

UNIVERSAL APPLICATION

Works with timber & composite boards of variable thickness & groove depths

STRENGTH IN SIZE

Proven strength in uplift holding power & preventing lateral movement of boards

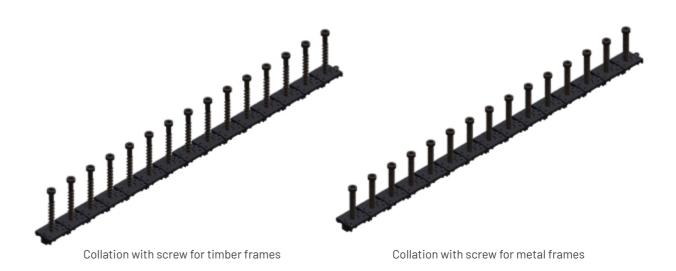

EASIER POST-INSTALLATION ACCESS

More convenient post-installation board removal with direct overhead fastener access

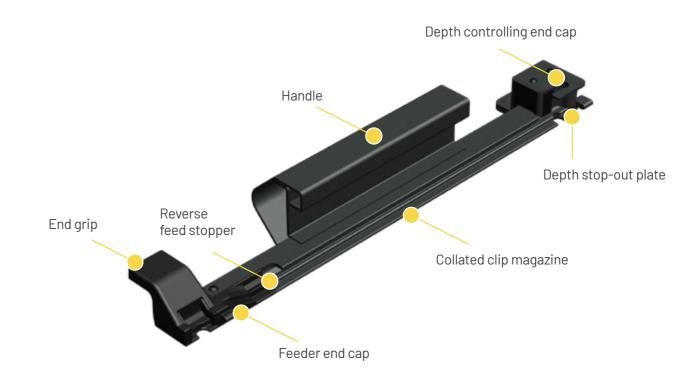

CHAIN COLLATED CLIPS

Chain collated clips offer a smarter solution for creating an outdoor oasis. By preloading high quality and durable screws into equally reliable clips. Chain collated clips make installation more efficient, and are suitable for use by professionals or novices. Like all Eva-Last products, Chain collated clips are built on the principle of longevity.

CHAIN HAND TOOL

The Chain hand tool adds value to the Chain collated clip system by maximising installation efficiency. The hand tool creates precise fastening thanks to its built-in depth control system that eliminates installation errors and weak connections. The hand tool is compatible with a wide range of composite and timber board sizes, ergonomically designed for ease of use, and made from high quality materials for long-lasting reliability.

10 1

RENEWABLE RESOURCES & RENEWABLE ENERGY

We believe that how we manufacture is just as important as what we manufacture when it comes to going green. That's why we've traded in fossil fuels for renewable energy. Our products use solar power as part of our manufacturing process. We are fully committed to bringing you a product that's holistically sustainable.

Eva-Last is internationally recognised for our commitment to the environment. We're proud of the work we do to promote environmental sustainability, and invite you to choose timber alternatives that are gentle on the Earth.
